Overview

The 2012 Beneteau Oceanis 50 F epitomizes a luxurious sailing yacht that has undergone meticulous refitting to enhance both performance and comfort. This impressive vessel features spacious cabins and a well-appointed interior, making it ideal for extended sea voyages and leisurely cruises. Equipped with a YANMAR engine installed in 2020, complete with a newly integrated engine panel, it ensures reliable power and efficiency on the water. The addition of a VICTRON battery charger and batteries from 2023 further enhances its onboard capabilities.

Recent enhancements in 2024 include comprehensive maintenance, antifouling treatment, and meticulous polishing, ensuring the yacht maintains its pristine condition. The replacement of through hull valves installed in 2023 enhances safety and operational reliability. Additional upgrades such as plush salon carpets replaced in 2023 and upgraded water taps across all sinks and showers add to the yacht's comfort and elegance.

Moreover, a new mainsail fitted in 2022 enhances sailing performance, while the thorough cleaning of tanks and installation of new pipes for waste and water systems in 2024 ensure peak functionality and reliability for discerning seafarers.
