Overview

Evripus 740 Cabin 2016

This 2016 Evripus 740, with an overall length of 8.50 meters including the extended swim platform, is a high-quality boat featuring numerous enhancements beyond the factory model.

The boat is powered by a Suzuki DF 250 engine with 850 hours of operation, in excellent condition, and is complemented by a Tohatsu 9.8 HP auxiliary engine, also in excellent condition. It comes equipped with Garmin GPS and a separate depth sounder for precise navigation.

The deck, cabin, and swim platform surfaces are adorned with luxurious teak, while the external walkways up to the bow and the sun deck are covered with gray teak foam, combining style and comfort. Externally, you'll find two stainless steel DAIS bucket seats, providing both durability and comfort. The boat also features a new 1200W windlass with a meter for effective anchoring, and custom-designed flaps to enhance performance.

Additional features include a new BOSS audio system with radio and four speakers, new upholstery for the deck and sun deck, including leather seats. It also has a hydraulic mechanism for the hatch, new marine and standard batteries, and a battery charger.

Other amenities include a solar panel with its charger, a refrigerator, a television, and a marine toilet with a waste tank. The boat comes with a dual-axle trailer in excellent condition, complete with its own registration.
